

Fast-acting Rejensa® joint care chews

email offer instructions

Bring your clients into your clinic for their free Starter Pack of fast-acting **Rejensa**. Simply use one of the copy and images provided to send an email through your practice's management system. Follow all of the instructions below and ensure that you are sending your email to a list of canine-owning clients.

As you make the final edits to your email, please review the list below to make sure that you have updated the required customizable areas and that you have properly targeted your email.

Items for customization:

- Update **[CLINIC NAME]** with your clinic name in the subject line.
- Update **[CLINIC LEGAL]** with any additional legal you may have, including your unsubscribe link and instructions.
 - Add in any required lines to comply with CAN-SPAM laws (e.g., physical mailing address, unsubscribe link, why customers are receiving the email, etc.).
 - NOTE: Ensure the email is entirely CAN-SPAM compliant and includes a compliant opt-out mechanism.

Subject line:

FREE* from **[CLINIC NAME]** while supplies last! A breakthrough in fast-acting joint care for dogs.

Targeting your audience:

1. Filter your client database to obtain a list of canine-owning clients. For every 200 emails sent out, you can expect approximately 10 clients to respond (5%). In order to get your email list down to a manageable number, here are some filters you can apply:
 - a. Canine-owning clients
 - b. Canine-owning clients with dogs aged 5+ years (increase this age to reduce the number of recipients)
 - c. Canine-owning clients who have visited the clinic in the past 12–18 months
2. Send your email and wait for your clients to come in requesting their free Starter Pack — expect to see approximately 5% of your email recipients come in for this high-value offer.

Managing your Rejensa Starter Packs:

Your clinic was given 36 Starter Packs of **Rejensa** to give to your clients for free in accordance with the Program Terms and Conditions. Be sure to keep track of your clients who come in to redeem this offer and end the offer as soon as your 36 Starter Packs are gone. The email clearly states that the offer is available only while supplies last.

Email copy:

Try fast-acting Rejensa® joint care chews for your dog dog — FREE!* While supplies last.

See the difference in your dog in as little as 16 days.**

Joint care is critical for your dog. Our clinic wants to let you know about **Rejensa**, a fast-acting, breakthrough joint care chew for dogs that contains Gluco Blu®, an improved form of glucosamine that really works.

All dogs may develop joint pain or other joint-related issues. Give your dog the joint support and care they need with once-a-day **Rejensa** joint care chews.

Start your dog on **Rejensa** before you see that they:

- Don't exhibit puppy playfulness anymore
- Look at the stairs and think, "nope"
- Can't be bothered jumping onto the bed
- Don't leap into the car like they used to
- Lose interest in running, fetching and tug of war
- Prefer long naps to long walks

Simply show us a copy of this email to redeem your FREE* Starter Pack of Rejensa! Available while supplies last.
